Concerning the 2021 NFL draft. The Division is providing the following guidelines when offering and accepting sports bets.

- **Pre-Draft offerings must be made and accepted prior to the first selection in the Draft.**
- **Round specific offerings must be offered and accepted prior to the start of that specific round.**
 - For example, “will player X, be drafted in the second round?” or ” x number of Offensive Lineman will be drafted in the second round.”
 - This bet must be placed prior to the start of the second round.
- **In-Draft betting only permitted in rounds 1-3.**
 - In-Draft betting (in game play/betting) must be placed and accepted at least 2 selections prior to the actual event as these events occur on the NFL Network broadcast.
 - For instance, an In-Draft bet such as “selection or pick # 45 of the Draft will be a RB.”
 - This bet would need to placed prior to Selection # 43.

***Operators taking bets on the NFL Draft shall have clear and concise rules. Please review and amend your rules as necessary to cover the unique guidelines stated above.**
